SUMMARY

Senior backend developer with 10+ years of experience building scalable, high-performance web applications. Specialized in **PHP**, with strong experience in **Laravel**, **Magento (Adobe Commerce)**, and **system integrations**. Proven track record in **performance optimization**, **architecture design**, and delivering robust e-commerce and enterprise solutions. Looking for hands-on backend roles where I can solve complex problems and create reliable software.

EXPERIENCE

Senior PHP Backend Developer

Youwe

July 2021 - Present

- Developed and optimized **enterprise e-commerce platforms** using PHP and Magento 2.
- Built **Laravel middleware** to integrate Magento with ERP, CRM, and payment systems.
- Improved **system stability and performance** for multiple international projects.
- Delivered and maintained multiple **custom Magento solutions** for international clients.
- Implemented **API integrations** and handled complex **backend customizations**.

Senior Backend Engineer (PHP/Laravel)

Excoino

June 2019 - June 2021

- Refactored and scaled a **Laravel MVP to enterprise-level software**.
- Redesigned data model and architecture, as a result, **6× performance boost**.
- Increased test coverage to **47%** for core components.

Backend Software Engineer

Dunab Ertebat LLC

September 2017 - May 2019

- Developed **4 web applications** in **finance, crypto, and HR** using PHP/Laravel.
- Built **REST APIs and backend integrations** for complex business workflows.

Full-stack Developer

Gilas Software Group

July 2015 - September 2017

- Delivered **20+ client web projects** in a small dev team.
- Focused primarily on backend development using **PHP, Laravel, and SQL**, with occasional frontend contributions.

Junior Web Developer

Fara Computer

January 2012 - May 2015

- Built and maintained **9 WordPress and Laravel** websites for local businesses.

Software Developer Intern

Fara Computer

June 2011 - January 2012
